

## UNIT 02 / 13 • LEARN &amp; TRY

# A seed in a cup

Name: \_\_\_\_\_ Date: \_\_\_\_\_

**Learn**

Read the original passage twice. Put events in their order. Use words from the passage when a question asks for evidence.

Ravi puts soil in a cup. He presses a bean into the soil. He adds a little water. The cup sits by a sunny window. After some days, a green shoot comes up. Ravi draws the shoot in his book.

**Worked example**

A reason explains why something happened. An inference combines a clue in the text with a sensible explanation; it must fit the words on the page.

1. What does Ravi plant?

---

---

2. What fills the cup?

---

---

3. Where does the cup sit?

---

---
