UNIT 01 / 13 · LEARN & TRY

The missing wheel

Name: _____ Date: _____

Learn

Read the original passage twice. Separate what the passage says from what you infer. Use words from the passage when a question asks for evidence.

Leela wanted to race her toy bus, but one wheel was missing. She looked inside her bag and behind the door. Her brother found the wheel beside a cushion. Leela fixed it, then asked him to join the race. They used chalk to draw a road on the courtyard floor.

Worked example

A reason explains why something happened. An inference combines a clue in the text with a sensible explanation; it must fit the words on the page.
